VIDEOS,
ARTWORK,
STORIES &
MORE

As a community, you can contribute to the wellness of KCFN territorial waters by helping create the Coastal & Marine Management Plan.

WHAT IS AN COASTAL & MARINE MANAGEMENT PLAN?

It is the a beginning toward the implementation of desired goals and objectives by identifying when, where, and how management actions will create and establish a more balanced use of the coastal and marine environment for all life.

HOW CAN YOU HELP?

KCFN community members of all ages are invited to participate in the initial wave of the plan by helping develop values by sharing photos, videos, artwork, stories & more connected to coastal and marine environments.
